Nowhere does the wonderful skill of the Corset Designer show itself as in the slender, Fashionable ligure-lines of W-B Nulorm and La Vida Corsets.

They reflect the very spirit of ultra fashionable modes. They successfully restrict bulky, bulging curves, and emphasize long, graceful figure-lines. Nuform and La Vida meet the taste of all women.

W-B Nuform Corsets grace every age and type, and cater to every purse. Slender as well as average figures will find W-B Nuform an ideal Corset. Complete freedom of movement, correct, deep breathing and graceful, easy carriage.

Every pair is made of superior quality materials and dainty trimmings, with boning guaranteed not to rust.

La Vida models are high-class. They represent the best there is in corset making. They are conceded by all Fashion Creators in Europe and America to excell in design and wearing qualities all other corsets.

21 3.40 We have your favor of the 12th and thank you for see

I have not had a look at the rig you left here since you were here, and do not know just what was in the outfit. We see from your letter just what we have and figure that this would be shout what we need to do our work with. We have decided to use your machines, and are placing our order for eight outfits and several atump hooks. Will want you to come down and get our gang stump hooks straight with them. Thunking you, we are,
Respectfully,
BLACKSHER STORE COMPANY,

By J. U. Blacksher. (中)

In regard to the above firm wish to say that they have been operation for several years in the Southwest portion of the State, and have several large farms and are applying State, and nave accernt large larums and over applying the same conservative business methods to their farms as they do to their other business, and of course, had to come to the conclusion that to make their farming business profitable they would have to stump their land, and after scaling some so-called stump pullers tried out they had decided that dynamits was the only way they bought about two thousand dollars worth of dyne last fall, and had started in to stump their land.

I heard of them for the first time last February, and of course went to see them at once. I met Mr. Blacksher and told him my business. He at once informed me that I was wasting time with him, as he had already seen what was claimed to be the best atump puller on the market, and his neighber had set his seids, and had gone to digging and burning his stumps,

I told him that the machine I was selling—The lill Bonemer Steel Munarch—was not to be compared with anything he had

finally I induced Mr Blacksho er to fundish a to men to demonstrate one of these machines on his etomon." That men to demonstrate one of these machines on his shapps. That was last February and I did not sell him saything at that time. He said that he would have to make a thorough investigation before he bought anything, and when he did hay he wasted to have that he was getting the best. Now we have his orders weight outfits besides the one I demonstrated to him. He has taken all this time making a thorough investigation, and has be one maning a pursuage investigation, and has reach one or two other very much advertised stump pullers and gives them a try-out I am sure that if you will incleas a status that he will tell you what machines he has tried, IS THIS NOT FROM:

Get you an All Steel Monarch, and have the best often Get you an All Steel Monarch, and have the best of support that money can buy, and of course, you will agree that the best is always the cheapest.

If you are interested let us put this puller up in your farm and show you what it will do. If we enged show you that it is the best and cheapest puller you can buy, we don't want to see

### BICYCLE SEASON AGAIN

This is the time to figure on getting, that boy or that girl a bicycle. They will need it going to and from school, and they need t at other times.

A bicycle is a good investment, when it is bought right, and our 15 years experience is behind every machine we put out. The price h low enough to warrant the purchase now.
